GiVE is a consultancy company with an international activity and a detailed knowledge of local specifics.

Do you have any new projects and need to strengthen your team during their realization?
Do you need someone on an interim basis until you hire permanent staff?
Then Interim Management is an ideal solution for you.

Our Interim Managers and Experts:

- have more than 10 years of experience
- work at least 5 years in the automotive industry
- have an academic degree
- have knowledge of foreign languages
- have know-how of methods (VDA 6.3, Lean Production, Six Sigma, PPAP, APQP, FMEA, KOVP...)

Our Interim Managers cover the following areas:

- Plant management
- Crisis management
- Quality management (serial, to the customer, to the supplier, etc.)
- Supplier Development / Troubleshooting
- Production management (planning, expansion, relocation, Lean etc.)
- Project procurement
- Planning, management and optimization of logistics
- Project management from development to SOP

We operate in countries such as Germany, Spain, Portugal, Czech Republic, Slovakia, Poland, Hungary, Romania, Bulgaria, Turkey, India, China and Mexico.

How to start our cooperation? Let's make a detailed briefing – a key for a selection of an optimal Interim Manager / Expert leading to his/her successful staffing.

Tell us the information about:

- Initial situation
- Position / place in the organizational structure / interface
- Project duration
- Location of project realization
- Tasks
- Extraordinary challenges
- Required professional knowledge
- Requirements for the candidate personality
- Decision process / responsible person
